Date:-30th Sept. 2023**Internship Completion Letter**

We are glad to inform you that **Mr. Arjun Rama Honakande B.Tech (Instrumentation)** from **P.V.P.I.T College of Engineering, Budhgaon, Sangli**, has successfully completed his internship at Analogic Automation Pvt. Ltd from **01st August . 2023 to 30th Sept. 2023.**

During his internship, he has learned -

- Logic Development in RS Logix 500 and Studio 5000.
- SCADA Screen Development in Factory Talk View (FTView) Site Edition (Local Station).
- HMI Screen Development in Factory Talk View (FTView) Machine Edition.
- Testing of Program, SCADA and HMI on a training kit.
- Control Panel Testing

Name of Technical Trainer: Mr. Deelip Kulkarni

- He was very much interested to learn in our core division and also willing to put his best effort and get in to the depth of the subject to understand better.
- His association with us was very fruitful and we wish him all the best for his future endeavors.

With Best Regards,
For Analogic Automation Pvt. Ltd

5 Courses

Nimisha Naresh Phadnis

has successfully completed the online, non-credit Specialization

Python 3 Programming

This specialization teaches the fundamentals of programming in Python 3. We will begin at the beginning, with variables, conditionals, and loops, and get to some intermediate material like keyword parameters, list comprehensions, lambda expressions, and class inheritance. You will have lots of opportunities to practice. You will also learn ways to reason about program execution, so that it is no longer mysterious and you are able to debug programs when they don't work. By the end of the specialization, you'll be writing programs that query Internet APIs for data and extract useful information from them. And you'll be able to learn to use new modules and APIs on your own by reading the documentation. That will give you a great launch toward being an independent Python programmer.

Python Basics

Python Functions, Files, and Dictionaries

Data Collection and Processing with Python

Python Classes and Inheritance

Python Project: pillow, tesseraet, and opencv
