Industry Visit Report

11th May 2024

One Star Software Solutions

Details of Journey:

Padmabhooshan Vasanthaodada Patil Institute of Technology, Budhgaon. had organized an industrial visit on 11th May 2024 to One Star Software Solutions located in Sangli for the students of Computer Science and Engineering (Artificial Intelligence and Data Science) Engineering. The visit was organized by Prof. Ms. R. R. Jagtap , HOD of CSE (AIDS) engineering branch & Prof. Mrs. A. G. Chendke was the Faculty coordinator for the industrial visit. We started travelling from the college campus at 01.30 pm via our college bus. Totally 38 students along with 2 coordinators faculty were there in the journey. Mr. Shreyas Mane (CEO) started the session by a brief introduction about company. He shared his experience of IT sector with us and guide for the other trends.

Purpose:

Industrial visits are an integral part of Engineering and acknowledgement of technology upgrades. The purpose of industrial visits for students is to provide technical knowledge with the technological development in the industry and to understand the gap between theoretical and practical knowledge that could be passed in future.

This experience can help students to provide information regarding the functioning of various industries and associated problems and limitations.

Company Profile:

One Star Software Solutions was established in 2015 at Sangli. Mr. Shreyas Mane is the founder and CEO of this company One Star Software Solutions is not just a IT services provider, but a company passionate about true relationship building and client satisfaction. This company provides different services to clients like banking & finance, Healthcare, Digital & marketing agencies, retail & e commerce, Education & E-learning, Automotive, Travel & tourism, Publishing & advertisement etc.

Aim of the Industrial Visit:

1. To provide students an insight regarding internal working of company.
2. To know things practically through interaction, working methods and employment practices.

Industrial Visit Summary:

This one-day Industrial Visit for students provides in-depth knowledge about working culture of One Star Software Solutions and careers with necessary distancing and proper sanitization. It was an absolute free Industrial Visit. Also, it was strictly a non-advertising workshop and Industrial Visit. Industrial visit was being held at Sangli where students got an opportunity to acquire live theoretical and practical knowledge on recent trends in IT industry.

Presentation by Mr. Shreyas Mane (CEO, One-star Software Solutions, Sangli.)

Session 1: Presentation about Latest Technology & work in IT world

Mr. Shreyas Mane had given welcome speech & also given introduction about the company. He has explained about different technologies available for computer engineers. Also explained in detail about various platforms available for web development, software development, mobile application development. He explained history of company, which type of the facilities they are providing to the clients & also explained an importance about digital marketing & social marketing.

Session 2: Experience Zone

During this session all the students have visited company where all the employees are doing work. Mr. Shreyas Mane had explained about all the departments of the company. Departments are namely Web Development, Digital Marketing, Android Development IOS Development, QA & Project Planning & more than 100 Employees are working there. Really this was a fruitful visit for our students because they explained to our students how they are working & about an industry atmosphere & about technology. Students were very excited to know this information.

Session 3: Question Answer (QA)

In this session, they asked to students if anybody having doubt in any projects related or any specifications. During the Interaction between industry expert & our students they guided to all the students about how to get selected for Internship in the same company through pool drive.

Outcomes of the Industrial Visit to students:

1. This Industrial visit is very helpful in our future practical Life & bring a positive change in our thinking & practical behavior regarding Education & specializing our technical skills.
2. The Industrial Visit helped us to bridge the gap between academics and industry.
3. This visit was very informative & interesting for our students. They cleared all doubts about web development & latest technologies in Computer Sector.

The Points covered:

1. Get awareness about new technologies.
2. Different departments of Industry such as development, testing, management, HR etc.
3. Working and importance of each department present in the company.
4. Provide an exposure to students about practical working environment.
5. Gain a combined knowledge about both theory and practice.

Conclusion:

Industrial visits are arranged by colleges for the students to provide an opportunity to explore different sectors in which the students are passionate about it, Manufacturing, services, finance, and marketing. Industrial visit helps to mix theoretical knowledge with practical knowledge in a good way. From this visit, we got the information and practical knowledge about different departments/sectors in the IT Industry. As One Star Software Solutions, Sangli is working on different methodology. Students got the idea of what is this methodology and it's working. Moreover, it gives exposure from the academic point of view to the students. The main aim of industrial visits is to give exposure to the students about the practical working environment with theoretical learning. They provide students a good opportunity to achieve full awareness about industrial practices and working. About 60 students of 6th Semester computer sciences and Information Technology and faculty mentors Mrs. A. G. Chendke and Mrs. S. S. Patil benefited from this visit as they got a chance to discuss with the center head and other engineers working at One Star Software Solutions. Students learned the atmosphere and working culture which shows the success of this visit.

Student Experience:

It was our immense pleasure to visit the company One Star Software Solutions on 11th May 2024, Friday. Being a future software Engineer it was a great opportunity for students of B. Tech CSE (AIDS) 2nd year to visit the industry for the first time and groom ourselves into corporate professionals and acquire more innovative skills.

We visited the industry to interact and understand the latest technologies related to hardware and software.

They have global presence in India (Kolhapur), USA, UAE (Dubai) and Singapore. tCognition has since become a truly global IT solution and services provider, capable of developing awe-inspiring custom applications. tCognition is not just a IT services provider, but a company passionate about true relationship building and client satisfaction. This company provides different services to clients over the world like bankig & finance, Healthcare, Digital & marketing agencies, retail & e commerce, Education & E-learning, Automotive, Travel & tourism, Publishing & advertisement etc.

Aim of the Industrial Visit:

1. To interact the students with actual industry personals.
2. To make them aware of the industrial procedures required to enter in any company.
3. To experience the working environment in industry and visualize all the important Departments in the Industry.
4. Interaction of students with the peoples of all important departments.
5. To prepare the students for the selection of carrier path in different departments of industry.

Industrial Visit Summary:

This one-day Industrial Visit for students provides in-depth knowledge about working culture of tCognition and careers with necessary distancing and proper sanitization. It was an absolute free Industrial Visit. Also, it was strictly a non-advertising workshop and Industrial Visit. Industrial visit was being held at Kolhapur where students got an opportunity to acquire live theoretical and practical knowledge on recent trends in IT industry.

Presentation by Mr. Aniket Dange (Sr. Recruiter, tCognition, Kolhapur.)

Session 1: Presentation about Latest Technology & work in IT world

Mr. Aniket Dange had given welcome speech & also given introduction about the company. He has explained about different technologies available for computer engineers. Also explained in detail about various platforms available for web development, software development, mobile application development. He explained history of company, which type of the facilities they are providing to the clients & also explained an importance about digital marketing & social marketing.

Session 2: Experience Zone

During this session all the students have visited company where all the employees are doing work. HR manager had explained about all the departments of the company. Departments

are namely Web Development, Digital Marketing, Android Development IOS Development, QA & Project Planning & more than 100 Employees are working there. Really this was a fruitful visit for our students because they explained to our students how they are working & about an industry atmosphere & about technology. Students were very excited to know this information.

Session 3: Question Answer (QA)

In this session, they asked to students if anybody having doubt in any projects related or any specifications. During the Interaction between industry expert & our students they guided to all the students about how to get selected for Internship in the same company through pool drive.

Outcomes of the Industrial Visit to students:

1. This Industrial visit is very helpful in our future practical Life & bring a positive change in our thinking & practical behavior regarding Education & specializing our technical skills.
2. The Industrial Visit helped us to bridge the gap between academics and industry.
3. This visit was very informative & interesting for our students. They cleared all doubts about web development & latest technologies in Computer Sector.
4. We are very happy for this industry for provide such knowledge to our students.

The Points covered:

1. Recent trends in IT Industry.
2. Different departments of Industry such as development, testing, management, HR etc.
3. Working and importance of each department present in the company.
4. Challenges while working on actual projects.

Conclusion:

Industrial visits are arranged by colleges for the students to provide an opportunity to explore different sectors in which the students are passionate about it, Manufacturing, services, finance, and marketing. Industrial visit helps to mix theoretical knowledge with practical knowledge in a good way. From this visit, we got the information and practical knowledge about different departments/sectors in the IT Industry. As tCognition, Kolhapur is working on different methodology. Students got the idea of what is this methodology and it's working. Moreover, it gives exposure from the academic point of view to the students. The main aim of industrial visits is to give exposure to the students about the practical working environment with theoretical learning. They provide students a good opportunity to achieve full awareness about industrial practices and working. About 60 students of 6th Semester computer sciences and Information

Technology and faculty mentors Mrs. M. M. Raste and Mrs. A. G. Chendke benefited from this visit as they got a chance to discuss with the center head and other engineers working at tCognition. Students learned the atmosphere and working culture which shows the success of this visit.

Student Experience:

It was our immense pleasure to visit the company tCognition on 3rd May 2024, Friday. Being a future software engineer it was a great opportunity for students of B. Tech CSE (AIDS) 3rd year to visit the industry for the first time and groom ourselves into corporate professionals and acquire more innovative skills.

We visited the industry to interact and understand the latest technologies related to hardware and software. tCognition, Kolhapur campus is a state-of-the-art facility with a distinct style that blends local culture and aesthetics with several world-class features.

We wish that someday we are there working and being called as 'proud youth of India'.

ACNOWLEDGEMENT

The satisfaction & euphoria that accompany the successful completion of any task would be incomplete without the mention of people who made it possible . So We acknowledge all those whose guidance and encouragement served as a beacon light & crowned my efforts with success.

We have immense pleasure in expressing thanks to the principal **Dr. B. S. Patil** for providing all the facilities for the successful completion of the project.

With due respect, we thank our H.O.D. **Ms. R. R. Jagtap, Department Computer Science and Engineering (Artificial Intelligence and Data Science)** for her motivating support, keen interest which kept my spirits alive all through.

We would like to express thanks to our guide **Ms. R. R. Jagtap, Department Computer Science and Engineering (Artificial Intelligence and Data Science)** who guided us throughout the completion of this project.

Finally, we would like to thank all the teaching and non-teaching staff and all our friends who have rendered their support in the completion of this report.

7. System Design / Result:

The Gemini model is a large language model (LLM) created by Google AI, and it achieves state-of-the-art results in various tasks. Here's a breakdown of the system design and its capabilities:

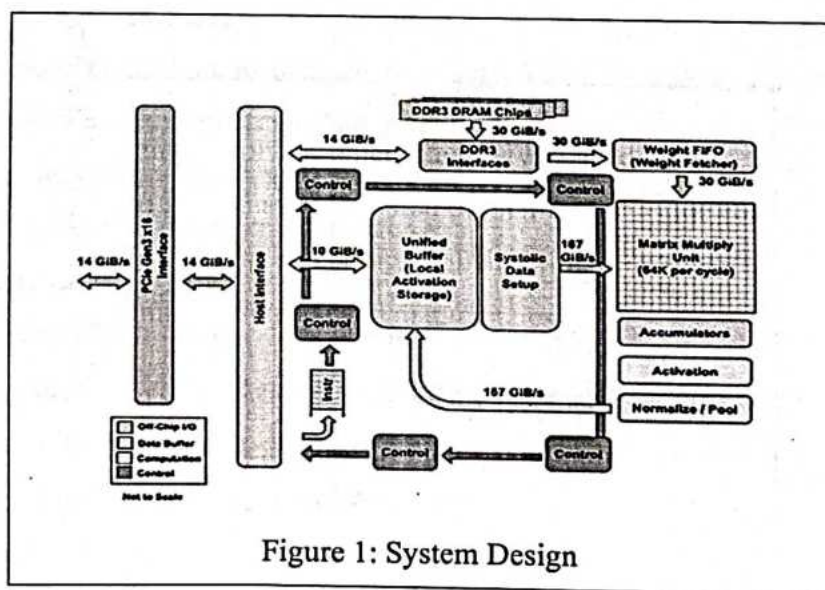

System Design:

- **Training:** Trained on a massive dataset of text and code using Google's custom Tensor Processing Units (TPUs) v4 and v5e, making it highly scalable and efficient.
- **Access:** While the specifics of the internal system design are not publicly available, programmers can interact with Gemini through the Gemini API, which offers functionalities like text generation, code completion and more.

Results:

- **MMLU Benchmark:** Achieved a score of 90.0% on the Massive Multitask Language Understanding (MMLU) benchmark, outperforming human experts on a combination of 57 subjects including science, history, law, and ethics. This signifies its exceptional ability to process information and solve problems across various domains.
- **Code Generation:** A specialized version of Gemini forms the foundation for AlphaCode 2, a system that excels at complex coding challenges that involve aspects beyond programming, like theoretical computer science and mathematics.

Overall, the Gemini model showcases significant advancements in AI, particularly in its reasoning and problem-solving capabilities. Researchers are likely continuing to develop the model's architecture, but its current iteration demonstrates remarkable progress in various fields.

Sub: Permission for arranging 3 days IoT workshop

Resp. Sir,

The Second Year Artificial Intelligence and Data Science class has Internet of Things and Embedded System as a course. IoT and IoT applications is the recent trends in the computer field. This particular course has only theory part, no practical part. Students must have some hands on implementing IoT applications so that they can do mini projects in third year. Therefore, we wish to arrange a three days workshop on IoT with Arduino and RaspberryPi. The course will be conducted by Logibit Technologies Pvt. Ltd.

The tentative fees for workshop is Rs.300 /- per students. There are 77 students. Total workshop fees Rs. 23,100/-

To make students serious about workshop attendance, we wish to take Rs. 100 from each student which can be utilized for other expenditure (Stationary, Hospitality etc.) on arrangement of workshop. Please permit us to arrange this workshop and also sanction Rs. 21,000 for the same.

Thanking you,

Your faithfully

WORKSHOP ON IoT

Introduction

- Introduction to Embedded System
- Introduction to controllers
- Introduction to Node MCU
 - ◆ Controller IC
 - ◆ Pin Description
 - ◆ Power Supply details
- Introduction to Arduino IDE

2. Basic Operations

- Configurations of Pins
- Digital Operations
 - ◆ Digital Read
 - ◆ Digital write
- Analog Operations
 - ◆ Analog Read
 - ◆ Analog write
- Delay
- Data types
- Examples
 - ◆ LED Patterns

3. Serial Communication

- Basic Concept
- Baud rate
- Hardware serial communication Pins
 - ◆ Pin details
 - ◆ E.g. Serial Monitor

Example Modules

- Flame Sensor
 - ◆ Operation
 - ◆ Interfacing
- Ultrasonic Sensor Interfacing
 - ◆ Operation Principle
 - ◆ Distance measurement Program
 - ◆ Printing Distance on Serial Monitor
- DHT 11 Sensor Interfacing
 - ◆ Operation
 - ◆ Interfacing
- 5V Relay Module
 - ◆ Operation
 - ◆ Interfacig

5. ThingSpeak Platform

- Introduction to ThingSpeak
- Configuration of ThingSpeak
- Sending Data from Node MCU to ThingSpeak
- Visualizing above Sensor Data on ThingSpeak

6. Adafruit Platform

- Introduction to Adafruit IO
- Configuration to Adafruit IO
- Operate LED remotely over the Internet using Adafruit IO

Introduction to Raspberry Pi

- R Pi hardware
- Operating system Installation for R pi3
- Basic Operations
- Pin Description
- GPIO pins
- Interfacing of Digital sensors
- Interfacing of DHT 11 Temperature sensor with R pi and monitoring Temperature.

Things To Be Covered In Workshop:

A. Controllers Covered

1. ESP8266 (Node MCU)
2. Raspberry Pi (Introduction)

B. IOT Protocols:

1. MQTT
2. HTTP
GET/POST methods

C. IOT Platforms:

1. Adafruit
2. IFTTT
3. ThingSpeak

Projects to be conducted within Workshop:

1. Fire Alarm
2. Obstacle Detection System
3. Temperature monitoring on ThingSpeak.
4. Home Appliance control using Adafruit IOT platform
5. Home Automation using Google Assistant

***Requirements

1. We will form Group of 4 people.
2. Computer with Internet Connectivity. (1 in group)
3. Projector

 Subject: Requesting Internship /Apprenticeship to Mechanical Engineering students.

Dear Sir/Madam,
 'Padmabhooshan Vasantraodada Patil Institute of Technology', Sangli (PVPIT) is first among private engineering institutes in Maharashtra, established in 1983 and affiliated to Dr. Babasaheb Ambedkar Technical University (BATU). It is AICTE approved, NBA & NAAC accredited. We have R&D and 'Institute innovation center' supported by our associated industries to groom our students to make them industry ready. We would like to be associated with your renowned industry for Industry Institute association and request you for the same.

In order to increase employability and generate technically sound resource we encourage students to undergo Internship /Apprenticeship. As per technical university norms, B.Tech students can have internship / in SY and BTech 8th semester. We request you to permit our following students for internship / Apprenticeship in your organization. On joining, students will follow all rules and regulations of your industry and complete the internship / apprenticeship.

On successfully completion of Internship / apprenticeship, we request you to issue letter of completion for our records and academic process.

CONCLUSION AND FUTURE SCOPES

Conclusion

The PTO power requirement of the harvester for the working speed of 2.0 km/h was estimated in the range of 8 hp. The bending moment of the shaft and gripper for the load was not taken. Hence for this capacity and discharge safely pick and place mechanism.

We concluded that one woman took 3hr for to dig 1000 plants manually, but our machine took 1 hour to dig 1008 plants. A five-bar planting mechanism consisting of a fixed plate, a driving sprocket, a five-bar mechanism, and a duckbill are described in this paper. The structure and working principle of the mechanism are introduced. A virtual prototype of the five-bar planting mechanism is established by Catia software. This study aimed to solve the problems of low transplanting efficiency and complicated sampling picking mechanisms by designing a mechanical high-speed transplanter for suitable seedlings. The machine consists of an automatic seedling picking system and a tray, which can automatically complete picking, planting, and covering the soil.

The best way to ensure the quality of plies is not affected by the pick-and-place operation is to grip the excess material. Increasing the pick-up points is not necessarily the best solution to decreasing the chance of damage to the plies - while the stress/strain will decrease, the stress and strain patterns will also become more complex. The optimal amount and location of pick-up points depends on quality and cost requirements and requires further research

Future Scope

The future scope for automated multi-vegetable transplanter machines appears promising, with several potential areas for development and improvement:

1. Technological Advancements: Continued advancements in sensor technology, robotics, and artificial intelligence could lead to more precise and efficient transplanting processes. Enhanced machine learning algorithms could enable these machines to adapt to different soil types, plant varieties, and field conditions, optimizing transplanting operations for various crops.

Experiential Learning

It includes the following ways of learning. Proofs of the same are attached below.

1. Industrial Visits

2. Field Visits

3. Hands-on Training

4. In-plant Training

5. Internship

This is to certify that Ms. Namrata Uttamrao Patil, Final year student of B.Tech Chemical Engineering, Padmabhooshan Vasandraodada Patil Institute of Technology, Sangli - 416304, has undergone training in Chemical Technology Division, Bhabha Atomic Research Centre, Trombay from 01/02/2024 to 30/04/2024. During the above mentioned training period, she studied Iodine-Sulfur process, Decomposition of H_2SO_4 using hot flue gas as heating media and design of a Double Pipe Heat Exchanger with Helical Fins, along with associated unit operations and processes. She has carried out a preliminary process design of Double Pipe Heat Exchanger in two different geometries (Double pipe & Helical fins) and compared the two designs for Decomposition of H_2SO_4 using hot flue gas. The design of Double Pipe Heat Exchanger with Helical fins will be used for decomposition of H_2SO_4 into SO_2 , Water and Oxygen.

During the above mentioned period she was found sincere and hardworking with keenness to learn the R&D aspects of process. I wish all the best for her bright career.

Subject- Regarding Educational visit of B.Tech Civil (Div-A& B)

Respected Sir,

I am teaching the subject Design of RC and PSC Structure to B.Tech Civil (Div-A) class. As per the university syllabus a short visit to show Prestressed Concrete Manufacturing Unit details in the field is essential and it is also a part of term work. Hence, necessary visit is arranged on 28/10/2023 at Shanti Prestressed Products Pvt. Ltd. MIDC-Miraj and Uttam Prestress Processes Pvt. Ltd. Alkud(M) Tal.-KavatheMahankal Dist.- Sangli.

So, I request you to sanction the Visit program.

Report on Industrial Visit at Shreenath Electricals Pvt. Ltd., Kupwad MIDC, Sangli

On the dated 24, FEB. 2024, our college Padmabhooshan Vasanttraodada Patil Institute Of Technology, Sangli (Budhgaon), Made a programme to visit at Shreenath Electricals Pvt. Ltd., Kupwad MIDC, Sangli

A Brief Introduction

Shreenath Electricals is a reputed manufacture of power and distribution transformers. They are having fully equipped workshop and technically qualified persons with rich experience in the field of manufacturing power and distribution transformer up to 2 MVA, 33KV.

The company is approved by many reputed consultants in this field and successfully supplied transformers through most of them.

◆ Expertise :-

- Power and distribution transformer upto 2MVA, 33KV.
- For the repairing of weir and distribution transformers upto 5000 KVA, 66KV.
- For transformers oil filtration on site.
- For installation and commissioning of power and distribution transformers at customer's site.
- Annual contract of servicing of customer transformers at their site.

◆ Design :-

The products are listed below.

- Distribution transformers upto 2000KVA, 33KV class
- Step up transformers upto 2000 KVA, 33KV class
- Earthing transformer
- Low voltage transformers for industrial applications
- Special transformers to meet customer's specific requirement
- Furnace duty transformers

Transformers are designed and tested as per ISS 2026-1977. The transformers are design by highly technical and experienced design engineer.

Sub: -Permission for industrial visit.

Respected Sir,

PVPIT Budhgaon is one of the most reputed Engineering institutions in Maharashtra and known for excellent record in academics and co-curricular activities. The college offers Bachelor Degree course in EE, CE, IE, ETC, ETX, CSE, Chem., AI & DS and MECH. The state-of-the-art facilities and competent faculty provide an excellent climate for the all-round development of the students.

As a part of curriculum, the students are required to undertake industrial visit to an industries of repute. We feel it will be fruitful that the students with academic background have a glimpse of the industry in order to have a better appreciation of industrial practices.

In above background, we would like to send a batch of about 65 students of Electrical Engineering of Third Year accompanied by 02 staff members to visit your industry your suitable date on 24th Feb 2024. I request you to kindly accord the necessary permission for the above visit and it will be helpful if you arrange for guidance to the students.

We assure you that our student will observe the rules and regulations that are prescribed by your company for the visitors and will in no way disturb the functioning of the company during their visit. We shall be grateful for a favorable response.

Thanking You.

Yours faithfully

Sub. :- Regarding permission of plant visit for the SY & TY B.Tech Instrumentation & Control Engineering Students.

Respected Sir,

We are arranging the industrial visit for SY & TY B.Tech Instrumentation & Control Engineering students' course for year 2023-2024. As a part of university curriculum the students have to complete their study for the subject Process Loop Components & Sensors & Transducers. In which they will study plant details by visiting various types of process plants.

As per discussion with Mr. Santosh Patwardhan sir they finalise visit date is 27th Oct 2023. So I request you to give permission for industrial visit to Chitale Plant, Bhilawadi Gaon, Tal-Palus, Bhilawadi, Maharashtra 416303. (60 students and 04 faculties)

Thanking you,

Sub. :- Request permission of plant visit for the SY & TY B.Tech Instrumentation & Control Engg. Students of the subject Process Loop Components & Sensors & Transducers.

Respected Sir,

Padmabhooshan Vasantryadada Institute of Technology, Budhgaon, Sangli is the one of the well known private engineering institute in Maharashtra. Our institute is approved by AICTE, recognized by Government of Maharashtra and affiliated to DBATU Lonere. Institute offers under graduate education in ten programmes and post graduate education in four programmes. Good infrastructure, dedicated and qualified staff, highly conducive environment for teaching and learning process and lush green campus are the hallmarks of our institute.

The students of our institute are studying in SY & TY B.Tech Instrumentation & Control Engineering course for year 2023-2024. As a part of university curriculum the students have to complete their study for the subject Process Loop Components & Sensors & Transducers. In which they will study plant details by visiting various types of process plants.

I request you to give permission for visiting your esteemed organization, so as to enable the students to fulfill their assignments. I request you, to permit our 60 students and 4 faculties by giving suitable dates in the span of 15th Oct. to 31th Oct 2023.
